Versatility is the key to a successful vending business, CMC offers the most complete espresso carts on the market. Even our standard cart is versatile enough to vend a wide range of products such as; hot dogs, granitas, shaved ice, blended drinks, snacks, etc.. Each hand crafted espresso cart offers refrigeration, plumbing, and an ample 50A 220v electrical system. In addition 22" folding side wings, Thermoformed acrylic sneeze guard, and impact resistant trim are included at no extra charge. Durability and reliability are crucial, so every CMC cart offers waterproof interior panels which are easy to clean and will last indefinitely. We understand the need for counter and work space as well, which is why our carts offer twice the counterspace of comparable 6' carts. The 627-BC provides 26sq. ft. of counter, and 34sq.ft. with the optional front wing. Ask your representative about special savings on equipment and kiosk components for a complete turn-key package.
